

## ARSF publications: 1994

Atkinson, P.M. "Selecting the spatial resolution of airborne MSS imagery." International Journal of Remote Sensing 18 (1994): 1903-1917.

Atkinson, P.M. and Curran, P.J. "Optimal size of support for remote sensing investigations I: Choosing an appropriate spatial resolution." IEEE Transactions on Geoscience and Remote Sensing (1994):

Atkinson, P.M., Webster, R. et al. "Cokriging with airborne MSS imagery." Remote Sensing of Environment 48 (1994): 1-25.

Blackburn, G.A. and Milton, E.J. "Ecology through spectrometry: the case of deciduous woodlands." Understanding the Terrestrial Environment: Data Systems and Networks Ed. P. Mather London: Taylor & Francis, 1994. 175-187.

Curran, P.J. "Imaging spectrometry." Progress in Physical Geography 18 (1994): 247-266.

Curran, P.J. "Attempts to drive ecosystem simulation models at local to regional scales." Environmental Remote Sensing from Regional to Global Scales Ed. G. M. Foody, Curran, P. J. Chichester: Wiley & Sons, 1994. 149-166.

Davies, P.A. "Remote sensing of cooling water discharges." Encyclopaedia of Environmental Control Technology Ed. P. Cheremisinoff New York: Gulf Publishing Co, 1994.

Davies, P.A., Valente Neves, M.J. et al. "Intercomparisons of modelling predictions and remotely sensed measurements of wastewater plumes from coastal discharges." International Journal of Remote Sensing (1994):

Donoghue, D.N.M., Reid Thomas, D.C. and Y. Zong. "Mapping and Monitoring the Intertidal Zone of the East coast of England using Remote Sensing Techniques and a coastal monitoring GIS." Marine Technology Society 28.2 (1994): 19-29.

Donoghue, D.N.M., Reid Thomas, D.C. and Y. Zong. "Mapping and Monitoring the Intertidal Zone of the East coast of England using Remote Sensing Techniques and a coastal monitoring GIS." Second Thematic Conference Remote Sensing for Marine and Coastal Environments 1994. 665-676.

Foody, G.M. and Cox, D.P. "Sub-pixel land cover composition estimation using a linear mixture model and fuzzy membership functions." International Journal of Remote Sensing 15.3 (1994): 619-631.

Gilvear, D. and Watson, A. "The use of remotely sensed imagery for mapping wetland water table depths; Insh Marshes, Scotland." Hydrology & Hydrochemistry of British Wetlands Ed. J. Hughes and A. L. Heathwaite Wiley, 1994.

Green, R., Lucas, N. et al. "Coupling remotely sensed data to ecosystem simulation models." Journal of Biogeography (1994):

Jupp, D.L.B., Kirk, J.T.O. et al. "Detection, identification and mapping of cyanobacteria - using remote sensing to measure the optical quality of turbid inland waters." Australian Journal of Marine and Freshwater Research 45 (1994): 801-828.

Matthews, A. and Boxall, S.R. "The use of imaging spectrometry and thermal imagery in the investigation of coastal processes." Annales Geophysicae 12.II (1994):

McMorrow, J. "Multispectral remote sensing of archaeological sites: NERC Airborne Thematic Mapper images of the Oxford flood plain." London: Archtype Books, 1994.

Munden, R., Curran, P.J. and Catt, J.A. "The relationship between red edge and chlorophyll concentration in the Broadbalk winter wheat experiment at Rothamsted." International Journal of Remote Sensing 15 (1994): 705-709.

Reid Thomas, D.C. and Donoghue, D.N.M. "Intertidal Mapping of The Wash Estuary." EARSeL Conference on Remote Sensing for Marine and Coastal Management 1994. 277-286.
